

PEDESTRIAN SAFETY EDUCATION RESOURCES

Walk! Bike! Fun! Pedestrian and Bicycle Safety Curriculum – Bicycle Alliance of Minnesota

“This two-part curriculum is designed specifically for Minnesota’s schools and is structured to meet Minnesota education standards. Walk! Bike! Fun! will help children ages five to 13 develop lifelong skills through fun classroom activities and on-foot and on-bike skills practice. Students will learn traffic rules and regulations, the potential hazards to traveling, and skills needed to bike and walk effectively, appropriately and safely through their community.”

Child Pedestrian Safety Curriculum – National Highway Traffic Safety Administration

“The Child Pedestrian Safety Curriculum teaches and encourages pedestrian safety for students in grades Kindergarten through 5th Grade. It is organized into five lessons: walking near traffic, crossing streets, crossing intersections, parking lot safety, and school bus safety. Each lesson builds upon the previous set of skills learned.”

Pedestrian Safer Journey – Federal Highway Administration

“Pedestrian Safer Journey helps educators, parents and others who care about pedestrian safety get the conversation started with children and youth. Three videos — one for each of three age groups (5-9, 10-14, and 15-18 years) — accompanied by a quiz or discussion and an educator's resource library can be used as an introduction to pedestrian safety skills or to augment a comprehensive curriculum.”

Tips for Parents and Other Adults for Teaching Pedestrian Safety to Children - National Center for Safe Routes to School

“Walking is a fun and healthy way to spend time with your children while teaching them skills that can serve them well throughout life. The walk to school is a great time to use these safety tips.”
